The Eagles came from behind to bump Vanderbilt 42 to 39 last Wednesday night but were then eliminated by the Snowbirds of Gaylord St. Mary's Thursday night, 66 to 38.

The Wednesday night contest saw Frederic fight back from a five-point deficit at the end of three periods and outscore Vanderbilt 14 to 8 in the final stanza for their three-point decision. Gordon Armstrong's 16 points was tops for the winners, but he had to yield the game's scoring honors to Vanderbilt's Bailey Sides, who tallied 18 on 32 shooting with Sides with 13 points for 31 of their team's 39-point total, was Mike Oliver. The only other player to hit double figures was Frederic's Ben Redman. He accounted for 12 of his team's 42.

On Thursday night the hosting Snowbirds had little trouble, tallying a 10-6 first period lead, winding up at halftime, 27-14, and then going away out ahead in the final frame with a 22-7 count. For the Snowbirds, 10 out of 12 players scored, paced by Larry Lyke's 20 on 6-0 and Jack Nowak's 12 on 5-2. Frederic's Ben Redman led both teams with 18 on 9-0.

Ten members of the Detroit Lion professional football team will make up the cage squad. It will give local sports fans a chance to see at close range what some of the Motor City gridiron stars look like.

It is expected that by next week a complete roster of those to come to Grayling will be available along with some photographs.

### Official Opening

#### Chief Shoppenagons Motor Hotel To Hold Opening On Saturday

Although the new Chief Shoppenagons Motor Hotel has been opened for business for some time and although an open house was held at one time to allow the public to look through the remodeled and refurbished establishment, the official Grand Opening has been slated for this coming Saturday, January 6th.

The time has been set for from 2 p. m. to 10 p. m. Guided tours will take visitors through the hotel to allow a look at the new rooms and furnishings. Coffee and doughnuts will be served. The lounge is the first room that visitors enter and it is set off in Danish modern furniture and decor. The spacious dining lounge can easily handle 200 or more for banquets and dinners and is bright in modern decoration. The Viking Room in the basement of the hotel will host private parties, skiers and other guests.

The glass-enclosed coffee shop just off the lobby allows diners a feeling of spaciousness as part of the hotel's new decor. The bedrooms all with private baths, present a tidy picture as Danish style.

It is impossible to write what the visitor can see. Everyone is urged to go to the new Chief Shoppenagons Motor Hotel this Saturday for the Grand Opening and to see what has been accomplished. The new hotel offers the very tops in accommodations to the tourist and visitor and also offers the best for local people to take advantage of too.

### Library Group Visits New Frankfort Library

A group of four people traveled to Frankfort last Thursday to look over a recently completed new library building at that city. The group was very fortunate to have interviews with both the architect and the builder of the building.

The new structure was built of brick and concrete. It cost \$15,000 for the building, another \$5,000 for furniture, drapes and other items. It was felt that the size of the building would not be adequate for the new Crawford County Library.

Those making the trip were: Wesley Kumpula, chairman of the County Library Board; Mrs. Ace Long, a member of the Board; Mrs. Augustus Funk, County Librarian; and Mrs. Matilda Poles, Bishop, vice chairman of the Friends of the Library. Over the holiday season, a sign was erected on the Court House lawn depicting the site of the new Library building.

Upon completion of the final phase of training, the new Marines reported to Camp Pendleton, Calif., for further infantry training.

### County Christmas Seal Sale Hits Record

Christmas Seal contributions from Crawford County have soared to an all-time record of \$567.61, and are continuing to reach state campaign headquarters in Lansing, where it was announced today.

J. Irvin Nichols, executive director of the Michigan Tuberculosis and Respiratory Disease Association, urged residents who have not already done so to mail their contributions now.

"We are indeed grateful for the support the people of Crawford County are giving the Christmas Seal campaign this year," Nichols said.

Funds will be used to continue the fight to stamp out tuberculosis and to battle other respiratory diseases, Nichols said.

### Business Volume Above Quota In Crawford Co.

NEW YORK, Dec. 26 - Crawford County's business indicators are moving upward. Local consumers, armed with better incomes, are returning to the market place in force.

Such are the findings contained in a new survey of business activity covering the fiscal year 1961. The survey, which was made by the Standard Rate and Data Service, incorporates data gathered from national, state and local sources. It takes in every section of the United States.

Most of the gains that were made occurred during the latter part of the fiscal year, in the six months ending June 30th. They took place when the consumer, after a long period of caution and hesitancy, began feeling more secure and more confident about the business outlook, and started spending a little more freely.

The result was that retail sales in Crawford County in the year aggregated \$7,179,000, topping the previous \$7,080,000.

The 1961 volume was equivalent to .0032 per cent of the nation's business, which was more than its quota since the local population is only .0028 per cent of the national.

The resumption of consumer spending was not, however, an across-the-board basis. People held back somewhat in their purchases of hard goods, such as cars and appliances, and devoted more to soft goods and services.

The fact that retail sales exceeded income locally shows that the county is the marketing hub of the region.

The pickup in business has been gaining momentum in the last few months, according to the latest Census Bureau figures. The sharp upturn in automobile sales in the current quarter is dramatic evidence of it.

### SERVICES HELD FOR OSWALD WEIDEMANN

Prayer services for Oswald Adolph Weidemann, 79, were held Wednesday, December 27th, at the Elmwood Cemetery mausoleum, with the Rev. Alfred Fennell officiating. Mr. Weidemann succumbed to a heart ailment after a long illness at the Grayling Mercy Hospital after a three-week illness due to exposure.

The deceased was born December 8, 1882, in Lithuania. He came to the United States in 1904, and to Crawford County in 1904, and to Grayling in 1904. He had purchased a plot of land eight or ten miles south of Grayling, expecting to find a home there, and made himself a dugout home which served him for many years. He spent a couple of years there and had lived in the city of Grayling on the south side for the past five years. When asked how long he had been a citizen of the United States, Mr. Weidemann stated, "I don't know for sure, but I voted for Teddy Roosevelt."

Mr. Weidemann leaves no known survivors.

### St. Mary's Ladies Club

St. Mary's Ladies Club met in December on the 19th for a Christmas party with an exchange of gifts, as was a regular meeting.

It was decided that the Ladies and Men's Clubs would join in putting on the Lumberjack breakfast during the winter sports carnival. Mrs. Bud Gould reported on the activities planned at the Hill Boarding Home for the Christmas party, and asked for contributions of refreshments. She also reported on the Christmas party planned for the mental patients at the Traverse City hospital and thanked donors for their gift donations for the party.

It was agreed to handle a dinner for the Fire Dept., men in January.

Father Sakowski expressed his thanks for the huge cross decorated St. Mary's church for Christmas, the Nativity scene, and for the decorations at the parish hall, put up by men of the parish. He also introduced Mrs. Sylvester Gorney, a new Grayling resident, who was made welcome by the ladies.

The luncheon committee were Mrs. Larry McNamara, Mrs. LeRoy Christian, Mrs. Dick Rasmussen and Mrs. Leslie Goss.

Groge Vert was eight years old on Sunday and Gary and Glenn Vert were eight on Monday, so each invited a guest on Sunday for a theatre party with dinner following at the Lone Pine Inn.

### To Harbor Springs Friday Night

#### Vikings Back In Action After Two Week Yule Holiday Recess

The Grayling High Viking basketball team will get back into action this Friday night after a two week Christmas and New Year holiday. The green and white will travel to Harbor Springs to meet the Rams this Friday night.

Although the Rams held only a two won, two loss record in conference play in contrast to the Vikings' three victories and one loss, Harbor Springs must be taken seriously. They were picked as one of the loop's favorites prior to the start of season's play.

The Rams are a towering outfit, the tallest in the conference and on their home floor can be expected to be very dangerous. The Vikings, fighting to stay in the loop's lead in which they are at present tied with Boyne City, Charlevoix and Sault, are expected to go all out to win.

The following week, the Vikings will entertain the Roscommon Bucks here in a non-conference fray on Tuesday night and then host the ever dangerous Charlevoix Red Raiders on Friday night. The Friday night clash in loop play should prove a very interesting game and by the time the final whistle blows one or the other of the contestants will no longer be in the top slot in the conference standings.

Harbor Springs and Grayling have played two common opponents so far this year. Both defeated Mancelona and both lost to Boyne City. The Rams just edged Mancelona 55 to 54 while Grayling stopped the Ironmen a little more decisively 46 to 42. The Rams lost to Boyne City by a close 34 to 29 score while Grayling was overwhelmed by the Ramblers 34 to 34. On paper, the teams look quite even. In Harbor's other two conference clashes, they were defeated by Charlevoix 71 to 59 and defeated Grayling 67 to 49. Grayling's other two conference games were a 49 to 38 win over East Jordan and a 45 to 38 victory over Pellston.

### Dates Set For Cytology Program

The dates of the cytology program (cell examination for uterine cancer, smears test) to be held in Crawford and Roscommon Counties are to be January 15th through February 28th. The program is for women above 25 years of age. The quota of those participating has been set at one thousand women, 400 from Crawford and 600 from Roscommon County.

The medical doctors will make the small charge of \$5.00 for the complete examination, which includes the smear test, during the program only. The \$3.00 charge for the reading and evaluating of the slide will be paid for by the Michigan State Health Department, which receives federal monies for this worthwhile project.

The District Health Department No. 1 is sponsoring the drive assisted by the County Cancer Society, Home Extension Groups and the Grayling Women's Club whose health program is in charge of Mrs. Lora Gould.

Each woman wishing to take advantage of the program is to contact her own physician and make her own appointment. Uterine cancer is 98% curable if discovered soon enough. In other counties which have already sponsored such a program, other types of cancer were also discovered as a result of the examination.

Mrs. Eli Beery, Public Education-Chairman for this county has available for showing a movie, entitled "Time and Two Women", which concerns the program. Any organization interested in viewing the movie can notify her at DI 8-5768.

A meeting to organize the cytology program was held in Roscommon at Gertrude Higgins High School on Tuesday, December 26, called by Dr. Georgia Mills, director of District Health Department No. 1. Also present were Mrs. Johanna Gorman, R. N., County Health Nurse, Mrs. B. E. Hone, president of the County Cancer Society, Mrs. William Jenson, Mrs. Jack Bates, chairman of the County Home Extension Groups, Miss Gladys Rydeen, educational consultant for this program from the Michigan State Health Department, Lansing and Mildred V. Nicholas M. D. of the Division of TB and Adult Health.

### Complete Annual Audit Of County Accounts, And Records

Auditor General Billie S. Farnum has released a report of the annual audit of the records and accounts of Crawford County. This report was made and submitted to the Board of Supervisors under the requirements of the Uniform Accounting Act.

The report covers the results of an examination of the records and accounts of all Crawford County officers and offices for the 1960 calendar year. It indicates that all recorded departmental receipts of the various county offices were accounted for and that the accounting records of the several offices were maintained in a satisfactory manner.

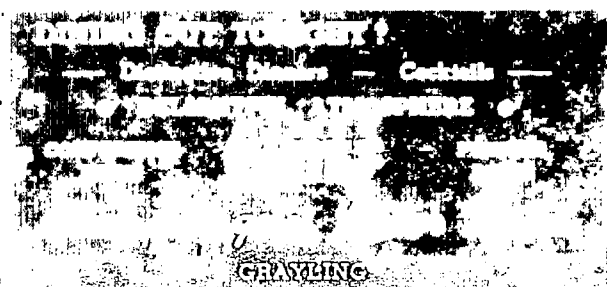

The following matters were the subject of audit exceptions and recommendations:

1. The lack of Board of Supervisors' audit and approval of the travel expense claims of the members of the County Road Commission. The Attorney General has ruled that such approval is required by law.

2. The annual alimony service fee was not collected on all active alimony cases, as required by statute and court decision.

The exception concerning the audit and approval of Road Commissioners' travel expense claims was directed to the attention of the County Road Commission, and the matter of the enforcement of the collection of alimony service fees was directed to the attention of the County Clerk. It was also requested that action be taken to clear the exception and report to the Auditor General on the action taken.

"THE JUDAS TREE"  
by A. J. Cronin

In "The Judas Tree," Dr. Cronin has dramatized modern man's uninhibited love of self, his heedless dedication to the pursuit of pleasure, his reluctance to sacrifice his personal desire for the sake of the ideals to which he once aspired and to which he still gives lip service. Young Dr. Moray failed himself at the outset of his medical career when he chose

money and sensual attraction over service and love. When we first meet Dr. Moray he is rich, living luxuriously in Switzerland. Whatever he wants is his for commanding. But when a guest at a party innocently mentions a small town in Scotland all his long buried guilt rises up and accuses him. He thinks of Mary, his pretty wife whom he abandoned for beautiful, rich Doris Holbrook. He is as ruthless with her as he has been with Mary. You will enjoy the headlong climax to what certainly is Dr. Cronin's most realistic novel as may well be his best. This book is available at the Crawford County Library.

VETERAN PORTER AND DECEMBER 1948

Miss Arlene Petersen, of Jackson, Michigan, and Robert L. Porter of Dearborn, Michigan, exchanged marriage vows at 10 o'clock Saturday afternoon, December 23rd, at the Michelson Memorial Church in Grayling. The double-ring ceremony was performed by the Rev. James Porter of Detroit, brother of the bridegroom, before over a hundred guests. June Feidhauser was or-

ganist and soloist, singing two numbers, "Calm as the Night by Bohm" and "The Lord's Prayer" by Malotte. Vases of white carnations and white pom-poms, and a white pom-pom, were placed on the altar and the chancel. The bride is the daughter of Mr. and Mrs. Johannes Petersen of Route One, Frederic, and the bridegroom the son of Mrs. Garrie and the late Norris Porter of Dearborn.

For her wedding Miss Petersen chose a gown of rosepoint lace with scalloped Sabrina neckline gathered at the waist into a full skirt. Her veil of net was finger-length, held by a crown of seed pearls. She carried a bouquet of white carnations and white roses.

Mrs. Donald Priest of Albion, college roommate of the bride, wore a red velvet street-length gown similar in style to the bride's. She carried white carnations and red roses.

John Porter of Dearborn, brother of the groom, was best man. Another brother, William Porter of Dearborn, Thomas and James Petersen, brothers of the bride, and Donald Priest of Albion, seated the guests.

Mrs. Petersen greeted her guests in a print silk gown, complemented with black accessories. Mrs. Porter chose gold velvet with black accessories. Both mothers wore corsages of white carnations and yellow roses.

Pine greens centered the table at the reception held in the church parlors immediately following the wedding. Assisting Mrs. Petersen with the guest book was Mrs. Clem Sajdak.

For her honeymoon in northern Michigan, the new Mrs. Porter chose a going-away costume of emerald green knitted wool, with black accessories. Mrs. Porter attended Mt. Pleasant High School and graduated from Albion College in 1937. Her husband attended high school in Dearborn, and graduated in 1937 from Colorado State University, also with a B. A. degree. Both will be teaching at Vandercook Lake, Jackson, and will be at home after January 1st at 320 1/2 W. Morrell Street, Jackson.

Guests from out-of-town for the wedding and reception were from Dearborn, Chesaning, Albion, Alpena, Mt. Pleasant and Saginaw.

## No Promised Land . . .

No less an authority than the Assistant Secretary of the Interior, who heads that department's water and power operations, has announced that the "partnership" policy in which government and private enterprise worked together to develop and distribute electricity from certain major projects, has ceased to exist. The inference can only be that, henceforth, government will seek to dominate, using tax money to pay the way for federal tax-exempt power plants.

This statement of changed policy brought an interesting comment from the Wall Street Journal. It pointed out that the Eisenhower Administration, which inaugurated and urged the "partnership" idea, never went far with it — that the arrangement it made consisted of compromises that "straddled the ground between unlimited Federal construction and ownership of power plants, whether or not private interest could do the job, and power development by investor-owned industry." Then the paper said: "... no real and substantial rollback of the trend toward a socialized power industry was made. Now even the mild restraint of the partnership is removed, and the public power zealots will be hurrying toward their destination with giant steps. Unfortunately for the American people, it will turn out to be anything but a promised land."

But hope remains. No matter what the Executive branch may wish, Congress has control of the purse strings and thus, in the long-run, will decide what our national electric power policy is to be. And in this era, with a defense budget approaching \$50 billion a year to oppose encroaching socialism from abroad, and with every possibility of still greater military spending, it is difficult to see how any responsible legislative body in a republic could appropriate funds for any purpose which taxing, publicly regulated, private enterprise can and will undertake.

## Free Money Hoax . . .

An Oregon newspaper recently published a letter from a state senator, in which he touched on the state's tax and revenue problems. He said: "What Oregon needs is a source of revenue which will meet the state's needs while not driving business out of this state in the process. Substantial federal aid to education meets this description. It would supply tax relief to Oregon, while at the same time having uniform effects upon the tax climate of every state."

Here is a scheme which would simply rob Peter to pay Paul. The inference is that federal money comes free and amounts to a net gain to the taxpayers of the state receiving it. Federal aid to education would have to be paid for by increased taxes levied on the taxpayers of all the states, including those receiving it — plus the

## B -Sleddin' and Belly Bustin'

bill for the heavy costs of federal administration.

The free money hoax applies to all the proposals for extending a paternalistic, do-everything-for-everybody, welfare state. The federal tax bill is already more than the grocery bill for millions of families, and the more government gives away the higher it goes.

## Interesting Events In Grayling 23 Years Ago

INTERESTING ITEMS OF NEWS GATHERED FROM THE  
FILES OF THE AVALANCHE OF 23 YEARS AGO

January 5, 1939

While snows descended in fleecy flakes, crews of men were kept busy at the winter sports park keeping the big ice rink clear for the skaters. Literally tons of "the beautiful" had to be cleared from the ice surfaces and carted away. While this was keeping the park crews busy, skiers were in the height of their glory, with ski trails deep with snow—skiing was ideal. And snowshoe enthusiasts were taking long hikes over the hills and through the valleys in the terrain of hills surrounding the winter park. The three-or-four-year remodeling plan that is being carried out by the federal and state park commissions is being put thru by a crew of about 200 workmen. This has been in operation since last summer. The new skating rink will be several times larger than the one in use and when completed will give the park one of the greatest skating areas anywhere in America. This will not all be ready this season. It requires thousands of feet of additional plumbing and much more snow removing machinery before the complete new set-up would be ready for use. However, the present rink is still larger and finer than any other in Michigan.

The New Year's Eve party given at the Masonic Hall was one of the gala holiday affairs given in this community. The ballroom had been made very attractive with gay colored balloons, while clever silhouettes of dancing girls (for which Mrs. Roy Milnes may take a bow) covered the wall spaces. "Happy New Year" in large letters met your view from the lower end of the hall and window boxes with holiday greens gave a very cheerful atmosphere to the room. The George Hext orchestra of Alma furnished the music that kept the dancers happy until a late hour. The party was

sponsored by the Hospital Aid Society for the benefit of Mercy Hospital and it was typical of the fine affairs given so many times by that organization. The Eastern Star ladies furnished the lunch and had charge of the checking room.

Preceding the New Year's Ball Saturday evening, Miss Jayne Keyport entertained some twenty-five guests at a cocktail party. The young people had a merry time in the recreation room of the Charity Ball later. Several ladies and gentlemen were guests of Dr. and Mrs. Stanley Stealy at an hors d'oeuvre party preceding the New Year's Ball.

The School Board and City Department of Health have decided that school will open January 9. At that time the quarantine for scarlet fever will be lifted. During the holidays it was decided to not reopen school on January 3rd and to exclude children from the streets, churches and from gathering on the streets. Cases reported have been fewer, so it has been decided that the ban will be taken off at that time. Since Thursday last the City Health Officer reports four cases of scarlet fever. They are Ann Marie Decker, Milo Bielski, Ervin Cady and Bernie Worden.

Business men of Traverse City, Grayling and Kalkaska are preparing to ask immediate action on construction of M-76 from Traverse City to Grayling. Plans provide for sending a delegation soon to Lansing to see Commissioner Van Wageningen. The road would go directly east from Traverse City to Kalkaska joining M-76 at that point and continuing to Grayling. The road would eliminate five railroad crossings and shorten the highway distance between Traverse City and Kalkaska by six miles.

Mr. and Mrs. Frank Bond and son and daughter left Sunday to spend a few days at Burnside.

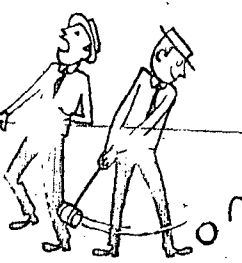

Mr. Robert Hayes of St. Louis was the guest of Miss Jayne Keyport at her home over the weekend.

Mr. and Mrs. Charles David returned to their home in Flint on Monday after visiting the latter's parents, Mr. and Mrs. Eggie Bugby.

Mr. and Mrs. Brad Jarmin spent the New Year weekend visiting friends in Ypsilanti and Detroit. Mrs. Pearl Smith and daughter and J. H. Endricks of Marion, Ind. were New Year guests of the latter's daughter, Mrs. Joe Kormosky and family.

Mrs. Hurl Deckrow was hostess to the Bunco Club of which she is a member, Monday evening. Social honors went to Mrs. Harold Hatfield and Mrs. Floyd Taylor. The hostess served a delicious lunch.

Don Sweeney, manager of the local office of the Michigan Public Service Co., has rented the Jerome Kessler home and will be joined by Mrs. Sweeney and little daughter Sandra Sue of Mancelona the last of the week.

Miss Dorothy Roberts entertained the members of the Just Us club Thursday evening at her home. Games of several varieties were played. Lunch was served on a prettily decorated table, the hostess choosing a New Year motif.

The weather report for this morning (Thursday) at 6 o'clock was 37 above. According to reports from the Grayling Fish Hatchery, the cold it has been in December was 11 above. During the storm Tuesday and Wednesday of last week the thermometer stayed around 12 above.

It seems good to have the streets plowed after the heavy snow which blocked all the streets for a couple of days. A snow plow was loaned to the city from the State Highway Maintenance garage, as the one city plow could hardly handle all the plowing in a short time. The approximate amount of the cost for snow removal for last week amounted to \$86 for wages and about \$80 for trucks.

Mr. and Mrs. Chris Hoelsi and Mr. and Mrs. Grant Shaw left on Wednesday morning for a warmer climate to spend the remainder of the winter. They are traveling in a house trailer and expect first to go to Texas, and then from there to Florida or California. Last year the two couples spent the winter in Florida and planned then to do the same this winter. It will be April before they will be returning.

Have you noticed the different sound of the mill whistle at the Kerry & Hanson Co. plant? The old one has been replaced by one that was used on the old Salling Hanson big mill. It is said that some of the oldtimers were startled from their slumbers on first hearing it, they had gone to work so many mornings long ago called by the same old whistle.

## Who Sets Used Car Prices?

Many motorists, about to trade in their used cars, wince when the salesman quotes them an allowance figure. They fail to realize he is only quoting, not settling, the market price.

Starting out to estimate a trade-in deal, most dealers use one of the popular price guides for a general indication of wholesale or retail prices. These are figures obtained from auctions and sales reports across the country and represent an approximate average of values. They are never a substitute for the specific valuation a dealer puts on a car from his day-to-day knowledge of what it will bring on his own lot.

Isn't it plainly evident, then, that the real used car price setter is the cautious used car shopper who looks long and hard before he lays out his hard earned money? What he is prepared to pay for a particular model in a given condition is that car's true market value.

Excepting a really top condition used car sold by a dealer with a reputation for quality, this true market price is a standard and uniform figure, common to all dealers.

It logically follows, because profit and loss economics is a hard master, that a dealer offering you more for your car than its true market value, MUST shortchange you somewhere else if he is to survive economically.

That is why a wise buyer buys only from a dealer whose reputation will stand investigation and whose customers testify to the value and satisfaction he delivers.

## RADKA REPORTS ON CON-CON

Christmas recess and preparing this report of the Constitutional Convention activities on Christmas Day leaves me with mixed thoughts and emotions. The Constitution of the State of Michigan is not and will not ignore religion and Christianity. The approach of the Holiday Season and there were many discussions about Divine Law and Man made Law.

You can be sure that the religious and moral fiber of the delegates will be well tested during the next few months. I reported previously that every session of the convention is opened by prayer and each session of the local government committee is opened by silent prayer.

The Convention recessed late Thursday afternoon, 21 December, and it has been reported that it was stalled at the half way mark. The refusal of the convention to take definite action on the first major committee proposal they considered after almost two weeks debate supports this conclusion. I have asked D. Hale Brake, Chairman of the taxation committee, who reported this major committee proposal to make next week and he may amplify this subject.

The local government committee was not stalled last week. We held committee meetings and public hearings mornings, afternoons and evenings. Townships, counties, cities and their associations, representatives testified and were questioned at length.

An interesting witness appeared and in the person of the conformation Mayor Orville Hubbard of Dearborn. The committee report was packed when he testified. He impressed the committee with his positiveness and his presentation was quite humorous. He truly criticized certain government institutions and individuals. Mayor Hubbard impressed me as a man who has a keen understanding of people and government and a sharp critical tongue which tempers with humor, but he does make his point. He believes in a strong executive department of government at the local level and repeated in a private conversation after the hearing that the severing of good government and a satisfied public is to give the people good service and more of it. Dearborn is a living example of this philosophy.

## Letters To The Editor

Dec. 29, 1961  
Crawford Co. Avalanche  
Grayling, Michigan  
Dear Editor:

Have been visiting friends here today, we took a short auto ride around to see the sights. I became enthused over the ski slide, toboggan, ice skating rink - then the charming homes took my attention. One, particularly intrigued me. It reminded me of Minnesota where I used to live. But isn't this All N. W. Territory? It began to snow - and whoops! I drove my right wheels into the shoulder of the road and sank into the soft snow bank.

As I was trying to dig myself out, a station wagon stopped. Two nice young ladies jumped out and took over. Soon I was up on the road again. But when I tried to pay them they refused. Then I offered to treat them to the price of a ski ride or some such, but their outfits had red crosses on their dark jackets. I learned they belong to the Ski Patrol and it was their pleasure to help others in trouble. I told them I've been a volunteer worker in Red Cross since 1941, they smiled and left.

Now I recall Red Cross began in Switzerland where skiing is tops. However, I'm convinced we have it here too. Tops in sportsmanship as well as sports! It's been a thrill to see what glorious Michigan really has - here thank you - and whenever the young men are of the Ski Patrol.

Sincerely,  
Emily F. Chapman

## COMPACT CLASS:

This class includes cars with 106 to 114-inch wheelbase. Most popular by far (a million happy owners) is the Ford Falcon. Falcon is America's lowest priced 6-passenger car, set a 25-year record for Sixes of Eight in last spring's Mobilgas Economy Run, gives you a choice of 13 models, including the Futura and new Falcon Squire wagon.

## FAIRLANE CLASS:

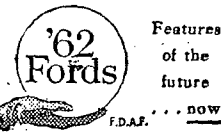

The 1962 Ford Fairlane is the first member of a new class which combines the advantages of both compacts and big cars... you get big car room, ride and performance... compact car maneuverability and savings. In fact, the new Fairlane even rivals some compacts in gasoline economy. Has twice-a-year maintenance introduced by the Galaxie. Available with thrifty Fairlane Six or world's first economy V-8 (optional).

## FULL-SIZE CLASS:

This class features big car comfort, performance and prestige. Value leader is the Ford Galaxie—which has every essential feature of far costlier fine cars. With the optional Thunderbird 390 V-8 engine, a Galaxie will outperform America's most expensive luxury cars. Requires servicing only twice a year, or every 6,000 miles.

## LUXURY CLASS:

The top class—cars for people who want the very finest. First of the trim-size luxury cars, the 4-passenger Thunderbird is the most distinctive car in this class. Its styling set the trend for an entire generation of cars and now finds a new elegance in the Landau (left). And Thunderbird's performance is just this side of flight.

## MORE DIVORCES Among Local Residents

(Special to the Avalanche)

New York — Crawford County's divorce rate is not one to boast about.

While it is not as high as the rate reported for some communities around the country, it is above average.

The local marriage and divorce statistics were gathered by the Census Bureau and recently released.

Their special importance at this time is in connection with the effect that broken homes have on children. The Family Service Association of America calls the situation "America's No. 1 social problem."

It goes a long way toward explaining the amount of delinquency among young people and the large number of children who are mentally disturbed, the association holds.

Nationally, the problem has grown to the point where some action has had to be taken at the Government level. As a result, the Children's Bureau, a branch of the Department of Health, Education and Welfare, has just announced

that grants totaling \$350,000 will be made to research organizations for a study of the factors which cause the separation of children from their families.

The figures for Crawford County show that 62 persons out of every 1,000 above age 14 is divorced or separated.

This is a higher proportion than in other parts of the United States, the average being 43 per 1,000. In the East North Central States, it amounts to 41 per 1,000. Locally, the Census Bureau lists 38 divorced women, 90 divorced men, 27 separated women and 65 separated men. Under "separated" are included all married people who are living apart from their spouses because of marital discussion, whether the separation is a legal one or not.

Commenting on the Children's Bureau program, Mrs. Katherine Oettinger, its chief, stated that "this is the first time in the bureau's history that we have been able to give direct financial support to this kind of project."

She said she hoped it would lead to effective counseling to parents in divorce cases, better foster home placements for mildly retarded children and homemaker services that would preserve the child's home for him.
